

— Our county fair will commence next Wednesday, when there will probably be a large number of visitors in town from the country, and towns in this vicinity. Our business men should take advantage of the occasion and advertise their wares.

— The Hardware store of H. Dodge & Son, of Mishawaka, was broken into on Wednesday night of last week, and cutlery, silver plated ware, etc., to the value of \$1,000 carried off. No clue to the thieves.

— Frank Adelbuch, aged about 40, was found dead near the corner of West Lake and Canal Street, in Chicago, about twelve o'clock Tuesday night. He went from Laporte to Chicago about a week ago.

— We would suggest the propriety of those of our citizens who travel over the country, spending a little of their leisure time in visiting our manufactures, that they may be able to speak encouragingly of them, when abroad.

— At least one-third of the tobacco crop of Wisconsin was entirely destroyed by the frost, last Sunday night. It was the most destructive frost ever experienced in that State, so early in the season.

— It is now thought that Prof. Wise will not sail to Europe in the Graphic balloon. The thing burst when it was being inflated. Lucky for all who were foot-hold enough to undertake the voyage.

Suicide.—Samuel P. Freeman, city Clerk of Fort Wayne, committed suicide in that place, early last Sunday morning. Intemperance was his besetting sin, which caused his wife to seek a divorce from him. His funeral was attended by the Mayor and city council, and a large number of friends on Monday.

— Benj. F. Butler, failed to get the Republican nomination for Governor of Massachusetts, and the Democrats are unhappy. The only consolation they can get is, by saying that Butler's defeat is a defeat of Grant's administration. That will do; but it is not near so much as they anticipated in Butler's success.

— A visit to Mr. Charles Smith's farm, opposite the fair ground, convinces us that neither drouth nor cold weather has operated against the crops, in this vicinity this year. Timely seeding and proper cultivation, wherever applied, on good soil, will produce good crops. Mr. Smith's corn is as large, completely filled, and well ripened as any we have ever seen on our prairie land in the most favorable season.

— We hope to add a large number of names to our subscription list next week. The **REPUBLICAN** is the largest and cheapest newspaper in the county. If our people want cheap reading they should encourage us in our efforts. Remember we charge but \$1.50 in advance per year, for the **REPUBLICAN**. Show the paper to your neighbor and tell him what our terms are.

— In a speech upon the subject of education, in the M. E. Conference at South Bend, Bishop Simpson said: "I want the day to come when the women will vote. Without their vote I fear we will never be able to put down the houses of infamy and liquor saloons of our country. Nothing is so ruinous to our country. It is true, and it is my opinion that we can't get along without the women voting." "It is not good for man to be alone."

VIT FAIRS.—The Chicago *Inter-Ocean* says of fairs: "Take an interest in these exhibitions, and let it be your fair and not your neighbors' alone. Take some of your own products, and if you do not take a premium you will take what is better, an interest in the exhibit exhibited. Much can be learned at the fairs that will be useful. Exhibitors are generally fond of giving the benefit of their experience, and your interest excites theirs. If you have any new variety of fruit or vegetable take it with you, if you do not enter it for a premium."

— The **REPUBLICAN** does not printing for the Marshall County Agricultural Association, which the managers of that institution propose to pay for. They give it all to the *Democrat*, without so much as inviting a bid from us. They have the right to do as they please about it; but as it is to be supported by the people, irrespective of party, a division of patronage among the newspapers, would be right and proper. The Association can hardly expect the **REPUBLICAN** to be very enthusiastic in its support, so long as it is conducted exclusively in the interest of the *Democrat*.

— Jean Lewis as a hunter, is a successist. Last Tuesday, he in company with two or three of the "b-e-h-o-y-s," (or in other words, Modocs,) took their guns and made for the woods. It was not long after entering the so called hunting ground, until the report of Jean's gun was heard by his comrades, which gave them warning that business had commenced. They went to him, to see what he had killed. What! Poor Jean was about gone up. The gun shot at both ends, one end killing a wild turkey, and the other end striking Jean just below the lower vest button, which as he says, "took his breath." When his "parda" discovered that he was not seriously hurt, they began to laugh, and poor Jean says he couldn't see where the laugh came in, especially on such a narrow escape as that. Jean is a good hunter, but when it comes to shooting a gun, he is not, "on it."

North Western M. E. Conference Appointments.

LAFAYETTE DISTRICT.
Presiding Elder—J. W. T. McMullen.
Trinity Station—Isaac W. Joyce.
Colfax—J. S. Woodard. One to be supplied.
Thornstown—L. Nebeker.
Thornstown Circuit—E. R. Johnson.
Leland Station—C. B. Mock.
Whitestown—W. S. Crow.
Wen—J. B. DeMotte.
Shawnee Prairie—J. H. Claypool.
Attica—Thomas S. Webb.

S. Godfrey—Located at his own request.
J. H. Hull—changed from effective to supernumerary at his own request. M. M. Stoltz, Chaplain Western Seaman's Society, member of Valparaiso Quarterly Conference.

THE STORM.—The terrific storm which swept over Lake Michigan on Sunday night created great havoc among the shipping. About twenty-five vessels of the Chicago lumber fleet are ashore on the east coast, and several larger craft crippled or wrecked on the islands at the foot of the lake.
The underwriter estimates the loss by the recent storm at \$500,000.
A large number of lives have been lost. Eighteen dead bodies have been washed ashore, which is probably a small portion of the whole number lost.

Russell's Patent School Seat and Desk.

It is perhaps not known by our citizens generally, that we have a manufacturing establishment in our city, which is destined to give profitable employment to a large number of workmen, in producing an article which is needed in every city, town and school district in the country. We refer to G. L. Brink & Co's. Planing Mill.

They are manufacturing Russell's Patent School Seat and Desk, the invention of Mr. Russell, of this place, an article which is cheaper and much stronger and better than the seats and desks now in use in the schools here. The desks are made entirely of wood, generally of walnut and ash sawed in narrow strips, and substantially glued together, making a beautiful variegated table. The seats are made of narrow strips, and the frame work is made of wood substantially fastened together. Every part of the work is cut out by machinery made expressly for the purpose, which enables the proprietors to turn out a large amount of work in a very short time. With the machinery now in use the manufacturers can turn out one hundred seats per day, and they have the seasoned lumber on hand to keep their machinery running up to its full capacity.

The manufacturers need more encouragement, and the assistance of our citizens to introduce their work. We have the finest material grown in Marshall county, of which to make the furniture. We have the machinery and the skilled labor to fashion it. Plymouth can be made a manufacturing town if our people will it, and thousands of dollars which are annually sent out of the country, can be kept at home. Much of our valuable timber has been destroyed and much more will be, which might be utilized, greatly to the advantage of every class of our citizens.

Messrs. G. L. Brink & Co., have sent a sample of their furniture to the Indiana State Fair, and they will have them on exhibition at our county fair.

They have made arrangements to send an agent west to take orders for their school furniture.
We shall take great pleasure in bringing prominently before the public any meritorious production of skill or art made in Plymouth, and we shall cheerfully co-operate with our citizens in giving notoriety to our manufacturing establishments.

ACQUITTED.—Ex-Catholic Priest, Patrick Sheehan, was tried by a jury, on Tuesday last, on a charge of grand larceny. The offense being the taking without liberty, in June last, of a silver watch, the property of Father Zurwelen. The taking was clearly proven, but the circumstances of the taking and the condition of Sheehan, caused the jury to acquit him of the crime. He was denuded by intemperance use of stimulants—alcoholic drinks, per laps.

—The superannuated preachers in the North Western M. E. Conference, are Joseph White, P. L. Beswick, D. Shonkewiler, W. H. Smith, G. W. Warner, R. Hargrave, J. B. Gray, D. Crawford, M. Johnson, R. H. Calvert, F. Pierce, J. H. Leach, C. B. W. M. Fraley, J. S. Donaldson, A. Connor, J. Sparks, G. Gaid, Dr. D. Holmes was also asked a superannuated relation, he having been insane a portion of the past year. His health is now reported as improving.

DIED.
Wm. P. Hamlin, born June 10th, 1802, Sussex county, Va., died September 11th, 1873, in Tippecanoe township, in this county. Aged 71 years 3 months and 5 days.
He had been a resident of the county for many years, and was one of its most respected citizens.

E. W. VIETS,
HOMEOPATHIC PHYSICIAN & SURGEON.
Office at residence, on Michigan Street, opposite H. G. Thayer's, formerly occupied by Dr. Vinal, Plymouth, Indiana.

NOTICE.
THE undersigned hereby notifies the public generally that his wife, Louisa Ringle, has left his bed and board without any provocation whatever, and that she refuses to return and live with him; all are therefore notified that he will not be responsible for any debts she may contract, as he has a home of plenty provided for her to which she can return at any time. HENRY RINGLE.
